We at the Development Authority of Bryan County welcome you to Bryan County.

The Development Authority of Bryan County is working to bring business and industry to our County. Our goal is to enhance the quality of life by promoting economically and environmentally sound development. Because of our efforts, Bryan County now has much to offer in the form of opportunities for new businesses and industry and for availability of jobs. In 1998, we began the process of development of an industrial park with 272 acres and have now expanded to over 1000 acres.

Interstate Centre is located at the intersection of US Highway 280 and Interstate 16. Our first tenant (Oracal) held their groundbreaking in February 2005. Interstate Centre has an electrical sub-station on site so three-phase electricity is readily available. Additionally, the Interstate Centre has a wastewater treatment facility and a 500,000-gallon per day elevated water tower on site. We also have natural gas, fiber optics and a County Fire Station in the Park.

We have a Class A park and our tenants, who have a combined total of approximately 500 employees, are Oracal USA, a manufacturer of adhesive film used in advertising; Oneida distribution facility (tableware); DKW Logistics, distributor of Kawasaki recreational equipment; Daniel Defense, a small arms manufacturer; Dicon Technologies, a research and development company and Bluebell Creameries.

You are always welcome to ask questions about our programs. Simply call Josh Fenn, the Executive Director at 912-653-4967 or visit our website at www.bryancountyga.com. Please feel free to drive through the industrial park at any time. The park is open to all of our citizens.
